

# Carbon Dioxide Emission

(Total emission for this period: 196 tonnes)

Please read disclaimer at bottom of page

### Disclaimer - Please Read

The equivalent CO2 emission graph should be taken as an indicator only of the amount of CO2 being produced to supply electricity to your site. Please note that certain assumptions have been made in generating this graph, based on emission factors published by the Australian Greenhouse Office as at June 2000 (<http://www.greenhouse.gov.au>).
